## SUMMARY

Full Stack Developer with 3+ years building web applications with PHP, Laravel and Vue.js, including ongoing development of a production payment gateway for online card payments — hosted checkout, API integrations and e-commerce plugins. I built the gateway's checkout plugins for WooCommerce (WordPress), PrestaShop, OpenCart, Zen Cart and Joomla.

## CORE SKILLS

**Languages:** PHP, JavaScript, HTML, CSS

**Frameworks & Libraries:** Laravel, Symfony, Zend, Vue.js, jQuery, Bootstrap

**Templating:** Twig, Smarty, Blade

**Databases:** MySQL, Firebase Firestore

**Cloud**: Google Cloud, Firebase (Firestore, Hosting, Authentication)

**Linux & Dev environments:** setting up and configuring Linux development servers.

**APIs & Integration:** REST APIs, third-party payment integrations, e-commerce platforms

**Tools & Platforms:** Git, GitHub, SVN, Firebase, Jira, Figma

**Dev environment**: WezTerm + Neovim + herdr, VS Code, Claude Code in the terminal

## RELEVANT EXPERIENCE

Full Stack Developer, **iCard AD**Aug 2024 – Present

- Build and maintain internal and customer-facing web applications with Laravel and Vue.js, focusing on clean architecture and long-term maintainability.
- Maintain and enhance a proprietary payment gateway (PHP/JavaScript) supporting secure online payment processing.
- Led development of 5 e-commerce plugins for WooCommerce (WordPress), PrestaShop, OpenCart, Zen Cart and Joomla. Integrating the gateway, delivering standards-compliant checkout across merchant sites.
- Use AI-assisted tools (Claude Code) for code review, planning, test generation and refactoring to speed up delivery.

Full Stack Developer, **Unbelievable Digital**Aug 2023 – Aug 2024

- Built and maintained web applications with Laravel and Zend, focusing on stability, maintainability and performance.
- Developed a Laravel application from scratch to client specifications; refactored a legacy Zend application, improving its structure and performance.

## OTHER EXPERIENCE

Vessel Agent, **EISA — Economou International Shipping Agencies**2017 – 2022

- Managed full-cycle port-call operations at Bulgarian ports — document control, regulatory compliance, and shipping/financial documentation — including terminal operations on behalf of Hapag-Lloyd AG, one of the world's largest container carriers.
